## PROJECT EXPERIENCE

I have extensive experience with html, css, js, react, react redux, react router and much more related to React coding.

Web pages of my works :

- [Createx Shop Wear](#) | [Github](#)

Project type: Individual educational project

Role: Frontend Developer (React Js,React Router, React Form, Redux toolkit, PDF creator, CSS(Swiper Slider))

- Sell clothes online, Provide a convenient platform for browsing, selecting and purchasing clothes from various categories: women's, men's, children's, sports, etc.

- Increase trust and customer engagement thanks to high-quality UX/UI, customer reviews, product ratings, return guarantee and secure payment.

- [Movies DB Service \(TMDB\)](#) | [Github](#)

Project type: Individual educational project

Role: Frontend Developer (React Js, Rest Api, CSS)

- Developed on React, used TMDB movie, search api service technology. Used swiper slider library and much more.

- [Portfolio prototype](#) | [Github](#)

Project type: Team educational project

Role: Teamlead, Frontend Developer (HTML, CSS, JS)

- The primary goal is to create a unique user experience that stands out among traditional portfolios and captures the attention of potential employers and collaborators. The website functions as an interactive résumé, combining informative content with a creative presentation.
