IT School GoIT

Fullstack Developer |
2024 – 2025

Ukraine, Brody
School education | 2003 - 2014

SUMMARY

Inspired Front-end developer with strong analytical thinking and well-developed organizational skills.

Ambitious, highly responsible, punctual, and goal- oriented person, always ready to learn and gain new experiences.

The ability to focus on details and time management are also good strengths of mine.

Friendly team player with a good sense of humor.

EXPERIENCE

Junior Front End Developer with deep knowledge and practical experience.

I have the necessary technical skills such as working with HTML5, CSS3 and JavaScript, developing on React and using GIT for effective team collaboration. In addition, I have experience in Node.js development.

My mission in the profession is my critical thinking, curiosity and positive attitude towards work which leads to the best results.

I finished **_GoIT courses_** and now I know the magic of Full Stack Development. My secret ingredient? HTML5/CSS3, JavaScript, React, Redux, Node.js, MongoDB and more. I know how to tame responsive design so that it works on any device, and I know exactly how to liven up your site with light animations.

My motto
Each project should be better than the previous one! And I`m always looking for new challenges and interesting opportunities so that your project doesn`t just exist on the Internet, but lives its own unique life.

WORK EXPERIENCE

I have extensive experience with html, css, js, react, react redux, react router and much more related to React coding.

Web pages of my works :

- *Createx Shop Wear*

  My advanced project, which is implemented using the react library, uses the react redux toolkit to manage state and data on the site, the project is in the process of development and improvement.

- *My self portfolio*

  My personal portfolio, developed in native html, css and java script.

- Movies DB Service (TMDB)

  Developed on react, used TMDB movie search api service rest api technology. Used swiper slider library and much more.

- Images Service (Unsplash)
