SUMMARY

Junior Front-End Developer with 2 years of experience building responsive, user-friendly web applications. Skilled in HTML5,CSS3,JavaScript,TypeScript,React.js,Next.js,GitHub,Nod e.js, and MongoDB. Completed the Full Stack Development course at GoIT, gaining practical experience in both front-end and back-end technologies.

Proactive and detail-oriented, with a passion for clean code and continuous learning. Led team projects during training, strengthening collaboration and leadership skills.

PROJECT EXPERIENCE

I have hands-on experience building 8+ personal projects using native HTML, CSS, JavaScript, as well as modern frameworks like React.js, Next.js, and Node.js. During my Full Stack Developer course, I successfully completed 4+ additional educational projects, including responsive websites, interactive applications, and full-stack solutions.

Web pages of my works :

[Fitness Club Web App](#)

Full-Featured Informational Website for a Fitness Club

Project type: Commercial project (freelance)

Role: Full Stack Developer (React.js + Node.js + Mongo db + Auth2.0) + UI/UX modification

A responsive and user-focused platform for a fitness club with:

- User authentication, including Google OAuth
- Personalized content based on user preferences
- Informational pages: policies, schedules, pricing, trainers
- Blog & news with interest-based filtering
- Secure data handling and mobile-friendly design
- Admin panel on a separate domain for full app control

UI/UX Highlights:

- Clear navigation and CTA buttons for quick access
- Minimalist, readable design with high contrast
- Personalized dashboard with recommendations and reminders
- Smart filtering via tags, categories, and search syn
